Broncho-Alveolar Lavage Catheter-Equine

This BAL catheter is designed to perform lavage on the equine lung. The BAL catheter can also be used for cytology or culturing the airways. The catheter is inserted nasally, once in place the cuff is inflated. A 3-way stop cock (NOT included) can be used for administration and aspiration of fluid. The stiffness of the catheter makes for ease of passage

- 30fr (10mm) x 240cm L
- 10cc inflatable cuff
