

A nonirritant, nontoxic, noncorrosive and nonhazardous bactericidal, fungicidal, virucidal, mycobacterial and sporicidal agent.

COMPOSITION

Each L contains benzalkonium chloride 50 g, didecyl dimethyl ammonium chloride 15 g, polihexanide 1 g

ACTIONS

TriGene disinfectant is a synergistic blend of several active ingredients. Polihexadine is a good Gram positive biocide, with variable activity also as a virucide. DDAC and Benzalkonium chloride are powerful quaternary compounds with activity against Gram +ve and Gram -ve bacteria and viruses high tolerance to both hard water and organic soilage

INDICATIONS

Suitable for general disinfection of all surfaces (floors and walls), kennel areas, examination tables, surgery walls, food and water bowls and bedding. May be used on rubber, vinyl and most hard surfaces, including food preparation areas.

TriGene is effective against bacteria, fungi, viruses and bacterial spores in veterinary hospitals and animal accommodation, including the following.

Bacteria. *Listeria monocytogenes*, *Salmonella* spp, *legionella* spp, *Escherichia coli*, *Staphylococcus aureus*, *Streptococcus* spp, *Proteus vulgaris*, *Pseudomonas* spp, *Mycobacterium fortuitum*, *Bacillus* spp, *Clostridium* spp, *Campylobacter* spp, *Klebsiella* spp, *Mycobacterium tuberculosis* and *Bordetella bronchiseptica*.

Fungi. *Microsporium* spp, *Candida albicans*, *Trichophyton* spp, *Penicillium* spp, *Aspergillus niger* and *Saccharomyces cerevisiae*.

Viruses. Parvovirus, Equine herpes virus, Infectious bursal disease virus (IBD), Influenza, Newcastle disease, Orthopoxvirus, Feline calicivirus (FCV), Feline Infectious Peritonitis, Feline panleukopenia virus, and Feline rhinotracheitis.

DIRECTIONS FOR USE

| Situation | Dilution | Comments |
|--|----------|-------------------------------|
| General disinfection on non-soiled surfaces | 1:100 | |
| Disinfection and cleaning in the presence of soilage (following removal of organic material) | 1:50 | |
| Disinfection in the presence of blood or other body fluids | 1:20 | Rinse and dry after 5 minutes |
| Laundry soaking | 1:20 | Soak for 30 minutes |

Diluted solution keeps for 12 months.

WARNINGS

Contraindications: Do not use for disinfection of medical, veterinary or other body contact instruments. Avoid contact with polished wood. Before use, remove animals and remove or cover all feed and water. Remove residual organic matter before disinfection. Rinse and dry surfaces before use.

Precautions: Do not mix with other chemicals or detergents.
