## CONNECT WITH POWER

# UNIUM™ CONNECT WITH POWER

Introducing the next generation  
Power Tool from DePuy Synthes.

Designed and developed with a focus on ergonomics, reliability and efficiency so that the attention can remain on outcome, without distraction.

Powered by an innovative Power Unit technology that promotes longer lifetime, reliability and sustainability.

Backward compatibility with Colibri II attachments ensures ease of upgrade.

## EFFICIENCY

- 18% increased power with improved torque / speed ratio
- Compatible with Colibri II attachments<sup>1</sup> and universal battery charger<sup>2</sup>

## ERGONOMIC DESIGN

- Compact design
- 19% lighter for more comfort and balance

## RELIABILITY

- Power pack electronics protected from steam sterilisation
- Powerful and durable brushless motor
- Longlasting lithium battery
- Battery level indicator visible during surgery

<sup>1</sup>New streamlined K-driver will be required

<sup>2</sup>Adapter required. May require software upgrade
