**génia**  
the veterinarian's preference.

**NEW**

**VACUUMAT®**

**Vacuum immobilization mattress.**

- Made of sturdy polyurethane material.
- Radiolucent.
- Easy to clean.
- 15% more microbeads to perfectly conform to the animal's shape.
- Flexible, comfortable and very sturdy material.
- The vacuum system allows complete immobilisation in the desired position, which is ideal for radiology, ultrasound, MRI, CT and surgery.
- Thermal insulation.
- High quality safety valve, which can maintain vacuum over more than 72 hours.
- High flow valve enables quick vacuum in just a few seconds.
- Open valve allows the matt to deflate and turn back to initial position instantaneously.

**Warning :** Do not use with electric scalpel.

Supplied by unit with a pump.
